

CERTIFICATION OF SERVICES RENDERED

To whom it may concern.

We declare that the bilingual reviewer Drielle Lima, translated (Portuguese to English) the manuscript entitled "*Ionic speciation of the soil solution along the profile of a dystrophic red Latosol under coffee crop and application of high doses of gypsum* *Ionic speciation of the soil solution along the profile of a dystrophic red Latosol under coffee crop and application of high doses of gypsum*", written in Portuguese by **Barbara Zini Ramos, José Maria de Lima, Milson Evaldo Serafim, Aline Renée Coscione, Raul Magalhães Ferraz, Guilherme Lopes.**

We emphasize that the basic revision conducted does not include textual improvement, although suggestions can be made regarding word changes and phrase rewriting. We do not change the writing form and style of the author of the text, so it is important that the text in Portuguese has conciseness, precision, cohesion, coherence and clarity, in order to have a perfect English version.

Lavras, November 6th 2018.
